### SECTIONS IN THIS FAQ

- 1. Pre-Purchase (3 Questions)
- 2. Delivery (1 Questions)
- 3. Returns (2 Questions)

## Pre-Purchase

### Q1. Can I buy prescription medicines on Drawnzers?

A: No. Drawnzers does not sell prescription medicines (Schedule H, H1, X). Only OTC medicines, AYUSH-approved products, and non-prescription health items are available. Consult a doctor and use a licensed pharmacy for prescription medicines.

### Q2. How do I know if a supplement is safe?

A: All supplements on Drawnzers are FSSAI-licensed. Check the ingredient list, dosage, and 'not suitable for' sections. Consult your healthcare provider before starting any supplement. Drawnzers does not provide medical advice.

### Q3. Are Ayurvedic products on Drawnzers government-approved?

A: Yes. All Ayurvedic products carry AYUSH Ministry/State licensing. License numbers are displayed on product pages. Drawnzers only lists products from licensed Ayurvedic manufacturers.

## Delivery

### Q4. How are liquid health products (syrops, tinctures) packaged?

A: Liquid health products are sealed, wrapped in bubble wrap, and placed in leak-proof bags inside rigid boxes. Temperature-sensitive products are shipped with cold packs. Report leakage within 24 hours.

## Returns

### Q5. I received an expired medicine. What should I do?

A: Do not use the product. Report immediately (within 24 hours) with a photo showing the expiry date. A full refund will be processed within 48 hours. Drawnzers will escalate this as a priority compliance violation.

### Q6. My glucometer is giving incorrect readings. Is it returnable?

A: Within 10 days of delivery, incorrect readings that are consistent (not occasional) and verified against a calibrated device qualify as a manufacturing defect. Initiate return with a description of the issue. Manufacturer warranty covers calibration issues after the return window.
