SECTIONS IN THIS FAQ

1. Pre-Purchase (3 Questions)
2. Returns (2 Questions)

Pre-Purchase

Q1. How do I check if a car accessory is compatible with my vehicle?

A: Enter your car make, model, and year in the compatibility filter on the Automotive Accessories page. Product listings also display specific model compatibility. For seat covers, verify the seat type (captain seats vs bench seats).

Q2. Are helmets on Drawnzers ISI certified?

A: Yes. As mandated by the Motor Vehicles Act, ALL helmets on Drawnzers carry ISI certification (IS 4151). Non-ISI helmets are not listed. The ISI mark and BIS license number are visible on the helmet and listed on the product page.

Q3. Is dash cam installation included with purchase?

A: Basic dash cam installation instructions are included. Professional installation is available as an add-on service in select cities. Select 'Add Installation' at checkout.

Returns

Q4. I installed the car mat and it doesn't fit properly. Can I return it?

A: If the mat was listed as compatible with your car model and does not fit, it qualifies for a return. If you ordered the wrong model, standard return policy applies — the mat must be uninstalled and in original condition.

Q5. My bike riding jacket has a broken zipper on arrival. Can I return it?

A: Yes. Broken zippers on arrival are manufacturing defects. Initiate return within 10 days with photos. A replacement or full refund will be issued.
