SECTIONS IN THIS FAQ

- 1. Pre-Purchase (3 Questions)
- 2. Digital Products (2 Questions)
- 3. Returns (2 Questions)

Pre-Purchase

Q1. Is the PS5/Xbox available at MRP on Drawnzers?

A: Drawnzers sells gaming consoles at MRP (Maximum Retail Price). Console pricing may vary slightly based on bundle inclusions (extra controller, game). No-Cost EMI is available.

Q2. Are PC gaming components (GPU, RAM) compatible with my PC?

A: Check the listed specifications carefully — GPU requires PCIe x16 slot, power supply wattage, and case clearance. RAM compatibility depends on your motherboard. Use the compatibility filter or contact gaming@drawnzers.in for compatibility assistance.

Q3. Are game discs region-locked?

A: India-region games work on India-region consoles without issues. International games are region-locked — verify your console region before purchasing international discs. Region information is listed on each game disc page.

Digital Products

Q4. I purchased a game code but it's invalid. What do I do?

A: Report within 24 hours of purchase with a screenshot of the invalid code error. Drawnzers will verify with the seller and issue a valid code or full refund. Code validity is guaranteed at the time of delivery.

Q5. Can I return a digital game code I no longer want?

A: No. Digital codes that have been revealed are non-refundable regardless of activation status. Please be certain before purchasing digital products.

Returns

Q6. My PS5 controller's L3/R3 buttons are not working. Is this returnable?

A: Within 10 days of delivery, non-functional buttons qualify as a manufacturing defect. Initiate return via 'My Orders'. After 10 days, contact Sony India's warranty service.

Q7. I need to return my console. Do I need to factory reset it?

A: Yes. Factory reset the console before return to erase all personal data. Drawnzers will wipe returned consoles during quality check, but factory resetting beforehand is your responsibility for data security.
